

## Product information

**Product**                    **Automatic touchless dispenser for liquid disinfectants with disposable roller pump**

**Article numbers**    **SD4005   •   SD4010**

**Volume**

SD4005                    500 ml  
SD4010                    1,000 ml

**Dimensions**

SD4005                    h 268 x w 96 x d 178 mm (d 205 mm with dripping tray)  
SD4010                    h 296 x w 101 x d 186 mm (d 235 mm with dripping tray)

**Material**

shock-resistant ABS plastics, white/grey

**Packing unit**

6 pieces

**Inner package**

single packed in poly bag and carton (white):  
SD4005                    h 195 x w 110 x d 276 mm  
SD4010                    h 210 x w 116 x d mm

**Outer package**

carton (white):  
SD4005                    h\* 410 x w 350 x d 300 mm  
SD4010                    h\* 440 x w 370 x d 320 mm  
\* goods are packed horizontally

**Weight dispenser**

SD4005                    approx. 0.85 kg  
SD4010                    approx. 0.93 kg

**Weight packing unit**

SD4005                    approx. 6 kg  
SD4010                    approx. 6.5 kg

**Quantity per pallet**

SD4005                    32/40 packing units = 192/240 pieces  
SD4010                    24/28 packing units = 144/168 pieces

**Filling**

thin liquid alcoholic disinfectants  
(disinfectant gel and liquid soap possible)

**Spare parts**

Batteries, bottle arrestor, dripping tray, key, lock, mounting material, roller pump (with jet and/or spray tip), set with dowels and screws, wall plate
